4x4 Off-Road All-Terrain Training Course

Various Dates 2018

Locations: Oldcastle, Co. Meath & Watergrasshill, Co. Cork

Course Outline

This course, while fun to do is aimed specifically at those who drive for work. There are no high speed river crossings or aggressive approaches to hazards which are found on most 4x4 courses. The objective is for the driver to understand what the vehicle is capable of doing on its own and then learning how to 'partner' it to obtain the best from it. Understanding what it can do Off-Road will give the driver an appreciation of its handling limitations On-Road. It is a lack of understanding of the vehicles design that causes the majority of incidents as drivers falsely believe the 4X4 vehicle is infallible in adverse weather. This course is graduated in difficulty leading to a driver obtaining a better 'feel' for what the vehicle is trying to do. In essence, less is more.

A theory session of approx' 45 minutes will introduce the drivers to the design characteristics of their vehicles and cover the limitations of its on-road handling as well as the Off-Road capability.

The various tyre options and drive control selection (low-range) will be explained as this lends to a clearer understanding of what to expect when we go on track. Vehicles fitted with a Diff-Lock will be demonstrated to ensure a lone-worker has the best chance of extracting themselves from a sticky situation or better still to avoid getting into one in the first place. This session includes the safety briefing with an emphasis on vehicle sympathy.

Course Objectives

To provide an opportunity to learn and practice the skills required to safely operate and extract maximum benefit from a 4x4 vehicle

To assist with safe On-Road driving (Snow, ice etc)

To comply with SHAW Act 2005 & Gen App Reg 2007.

To Instil confidence, with responsibility and so reduce risk

Driver Instructors

CPL Institute Instructors are holders of internationally recognised qualifications from either:

RoSPA Advanced Instructors Diploma

RSA Road Safety Authority ADI

DIA Diamond Advanced Special Instructors grade

NUI Certificate in Training & Continuing Education

M.ILT Member Institute of Logistics & Transport

RSI Rally School Ireland Advanced Control Course / Winter Driving Course

DF Defence Forces AF 154 driving certificate

On Track Vehicle Training:

Close coaching on a variety of hazards -

Pre drive vehicle checks

Negotiating Hazards , Mud, Tracks

Appropriate pace / Tilt Angles

Safe approach to steep ascents / descents

Concentration / Calm Attitude

Vehicle Sympathy

Action in the event of threatened roll-over

Feathering the throttle, feeling the steering

Recovery / Self-Extraction

Correct use of Traction Control

Each participant will receive:

A detailed Drivers Report returned to the employer

Certificate of Course Attendance

Constructive feedback from trainer

Off Road Handout for future reference.
